### OBJECTIVE

Freshly graduated Computer and Informatics Engineer.  
My goal as a front-end developer is to deliver exceptional user experiences by developing innovative web pages & user interfaces. I seek to work in an environment where I can apply my interface development skills to achieve company goals and meet user needs.

### EDUCATION

International University for Science and Technology | Syria | 2024  
Bachelor's: Informatics Engineering

### EXPERIENCE

- **Graduation Project: An online real estate brokerage system for student housing | 2023-2024**
  - Implement responsive design principles using Bootstrap to ensure compatibility across various devices and screen sizes.
  - Used HTML, CSS, JavaScript, jQuery, and AJAX in front-end development.
  - Used PHP and MySQL in back-end development to create a robust and scalable solution.
- **Frontend Developoer | SYweb company | Syria, Damascus**  
**April 2022 – May 2022**  
**The Project :Online Restaurant home page**
  - Developed and designed the homepage for an online restaurant using HTML, CSS, and JavaScript.
  - Created a user-friendly interface adhering to modern design standards to enhance user experience.
  - Implemented a responsive design to ensure the website works perfectly across all devices and screen sizes.
- **Frontend Developoer | SYweb company | Syria, Damascus**  
**January 2022 – March 2022**  
I trained with the company on HTML, CSS, and JavaScript skills, and we created small projects to develop what we learned
